

HOW TO GET TO LINCOLN BEACH

1. Take exit 257 off I-15 (next off ramp to the south after the Hwy 6 turnoff to Price).
2. At the light at the end of the off ramp turn left onto Spanish Fork's Main Street. Go south under the overpass and continue through town...past the lights at 1000 N. and 800 N.
3. The next light after 800 N. will be 400 N. There is a sign indicating the junction with Hwy 147. Turn right (west) and go through the school zone and up over the freeway overpass. You are now on 6400 S. The speed limit is 50. Continue for about 3 miles from Main St. to a 4-way stop sign...at the junction of 147 which turns to the south.
4. Speed limit drops to 35 beyond the junction of 147 so watch for enterprising enforcement...especially as you pass the egg farms and private residences.
5. Keep going west about 2 more miles to the sharp bend to the right at 3800 W. Go north 2/10 mile to the junction of 6300 S. It is the first road coming in on the left. Watch for the Lincoln Beach sign on the right with an arrow to the left. There is a large frame gateway for the home on the corner. Turn left (west) and continue 1.8 miles until the road crosses Benjamin Slough and makes a sharp right bend.
6. As you bend right (going north again) you will see orchards and farm buildings on your left and will be driving along the base of the hills approaching Lincoln Beach.
7. About 1.7 miles from the last bend you will see the Lincoln Beach parking area on your right. You can also see the dikes and launch ramp as well as the restroom facilities and covered picnic tables.
8. The paved road continues north and then west around the lake. The hot springs indicated on the Google map are submerged during high water but are visible during low water. The entire Lincoln Point area is enced and closed to public access or shore fishing. But you can fish it all by boat, tube or toon by launching at the County Park and coming in from the open lake.
